Re: American Can Corporation, Dft.  
Case No.

Dear Sir/Madam:

We are herewith returning the Letter, Enclosure, Information Request Addressee List, Exhibit which we received regarding the above captioned matter.

American Can Corporation is not listed on our records or on the records of the State of DE.

Very truly yours,

Anna Stewart  
Process Specialist

**Re:** Request for Information Pursuant to Section 104(e) of CERCLA for the residential portion of the USS Lead Site, 5300 Kennedy Avenue (the area bounded by Chicago Avenue to the north, Parish Avenue to the east, USS Lead to the south and Aster Avenue to the west), East Chicago, Indiana

Dear Sir or Madam:

This letter seeks your cooperation in providing information and documents relating to the contamination of the residential portion of the USS Lead Site (the Site), located at 5300 Kennedy Avenue, East Chicago, Indiana. The residential portion of the Site is bounded by Chicago Avenue to the north, Parish Avenue to the east, USS Lead to the south and Aster Avenue to the west all within East Chicago, Indiana. This is a Superfund site that is contaminated with lead or other hazardous substances that were disposed of or otherwise came to be located at the Site and that may present a threat to human health or the environment.

The United States Environmental Protection Agency (U.S. EPA or Agency) is investigating the release, or threat of release, of hazardous substances, pollutants or contaminants at the residential portion of the Site. The U.S. EPA is seeking information concerning the generation, storage, treatment, transportation, migration and disposal of lead and other hazardous substances that have been, or threaten to be, released to the residential portion of the Site. The U.S. EPA will study the effects of these substances on the environment and public health. In addition, U.S. EPA will identify activities, materials, and parties that contributed to contamination at the Site. You are receiving this letter because the U.S. EPA believes that you possess information which may assist the Agency in its investigation of the Site.

We encourage you to give this matter your immediate attention. Enclosure 1 is a summary of the information that U.S. EPA has about the Site and of the Agency's activities there. Enclosure 2 contains an Information Request. Please provide complete and truthful responses to this Information Request within 30 days of your receipt of this letter. Instructions to guide you in the

preparation of your response are in Enclosure 3. Definitions of the terms used in this Information Request and in the Questions are in Enclosure 4.

You may consider confidential the information that U.S. EPA is requesting. Under CERCLA, you may not withhold information on that basis; but you may ask U.S. EPA to treat the information as confidential. To request that the Agency treat your information as confidential, you must follow the procedures outlined in Enclosure 5, including the requirement that you support your claim for confidentiality.

U.S. EPA makes this request under the authority of the Federal Superfund law (the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §9601, *et seq.*, commonly referred to as CERCLA or Superfund). The Superfund law gives U.S. EPA the authority to assess the threats to human health and the environment posed by contaminated sites and to clean up those sites. Under Section 104(e)(2) of CERCLA, 42 U.S. C. §9604(e)(2), the U.S. EPA has information-gathering authority that allows the Agency to require persons and corporations to furnish information or documents. Enclosure 6 is a summary of U.S. EPA's legal authority.

Compliance with this Information Request is mandatory. The Superfund statute provides that failure to answer the questions fully and truthfully and within the prescribed time frame can result in an enforcement action and penalties. Other statutes provide that the submission of false, fictitious statements, or misrepresentations can result in sanctions.

The U.S. EPA has the authority to use the information that it requests in an administrative, civil, or criminal action.

This Information Request is not subject to the approval requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. §3501 *et seq.*

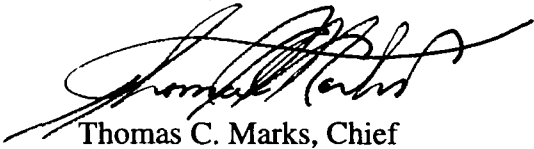

Return your response to U.S. EPA within 30 days to:

Linda Mangrum  
U.S. Environmental Protection Agency  
Remedial Enforcement Support Section  
77 W. Jackson Blvd., SR-6J  
Chicago, IL 60604-3590

If you have any legal questions, please call Steven P. Kaiser, Associate Regional Counsel, at (312) 353-3804. If you have technical questions about this Site, please call Michael Berkoff, Remedial Project Manager at (312) 353-8983. Address all other questions to Linda Mangrum, Enforcement Specialist at (312) 353-2071.

We appreciate your assistance and look forward to your prompt response to this Information Request.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'Thomas C. Marks', written over a horizontal line.

Thomas C. Marks, Chief  
Enforcement Investigation and Search Section  
Remedial Response Branch #1

Enclosure 1

SITE HISTORY ELEMENTS

This information request concerns the U.S. Smelter and Lead Refinery, Inc. (USS Lead) Superfund Site in East Chicago, Indiana (the Site).

In particular, U.S. EPA is seeking information about the lead contamination of soils within the residential area of the Site bounded by Chicago Avenue to the north, Parish Avenue to the east, U.S. Smelter and Lead to the south and Aster Avenue to the west. The residential area is composed primarily of single family homes with small front, side and back yards. The area also contains a park in the south-central section of the neighborhood. The homes within the Site boundaries were built up over the course of the last century and parallel the rise of industrial enterprises in the area surrounding the Site.

In 1985, the Indiana Department of Environmental Management (IDEM) determined that lead particles from neighboring industrial sources had contaminated soils within the Site. The lead contaminated soils may pose a risk to human health and the environment as seventy-five hundred people work or attend school within two miles of the Site. Wetlands are also located within the Site.

Since 1985, U.S. EPA has overseen the remediation and management of lead-contaminated soils within the boundaries of the U.S. Smelter and Lead Refinery, Inc. facility. U.S. EPA is now beginning to address lead contamination within the residential area to the north of the USS Lead facility. This information request is a part of that process.

## Enclosure 2

### QUESTIONS

1. Identify all persons consulted in the preparation of the answers to these questions.
2. Identify all documents consulted, examined, or referred to in the preparation of the answers to these questions, and provide copies of all such documents.
3. If you have reason to believe that there may be persons able to provide a more detailed or more complete response to any question in this Information Request or who may be able to provide additional responsive documents, identify such persons.
4. List your EPA Identification Numbers.
5. Identify the acts or omissions of any person, other than your employees, contractors, or agents, that may have caused the release or threat of release of hazardous substances, pollutants, or contaminants that may have migrated to or been deposited upon the Site.
6. Identify all persons, including current and former employees of MRI Corporation (herein after, "the Company") located in East Chicago, Indiana, (herein after, "the Facility") and its contractors and subcontractors, having knowledge or information about the generation, transportation, treatment, placement, disposal, or other handling of hazardous substances, at the Facility, or the migration or disposal of hazardous substances at the Site.
7. Please identify the years of operations for the MRI Corporation facility located in East Chicago, Indiana.
8. Please describe in general terms the production processes performed by the Company at the Facility.
9. Please identify any permits issued by either the United States Environmental Protection Agency or the Indiana Department of Environmental Management that govern the type or quantity of air emissions by the Company at the Facility.
10. Please state whether the Company used lead or lead-containing materials in the production process. Please provide the following:
  - A. A description of how the Company used lead or lead-containing materials in the process;
  - B. The years during which the Company used lead or lead-containing materials in the production process;
  - C. The quantities of lead or lead-containing materials the Company used annually in the production process;

- C. The quantities of lead or lead-containing materials the Company used annually in the production process;
  - D. A description of the processing capacity or throughput of the process using lead or lead-containing materials;
  - E. An estimate of the volume of lead or lead-containing material emitted annually into the air.
11. Please describe the manner in which you treated, stored, disposed and/or otherwise handled lead or lead-containing materials within your facility. Your description should include the following:
- A. A description of the physical state of the lead or lead-containing materials at each stage in the process;
  - B. A description of the areas within your facility where you treated, stored, disposed and/or otherwise handled lead or lead-containing materials;
  - C. A description of the methods you used to transport lead or lead-containing materials to and from the facility, and within the facility, including a description of the methods used to load and unload lead and lead-containing materials at each phase of the process. We encourage you to supplement your answers with a flow chart and/or a diagram if you conclude that a flowchart and/or a diagram would assist us in our understanding of your process.
12. Have you at any time provided lead or lead-containing materials to a person located in either Hammond, East Chicago or Unincorporated Lake County, Indiana, who either smelted or recycled lead or lead-containing materials? If you have, provide the name of the person or persons to who you provided lead or lead-containing materials, the address or addresses of their facility or facilities, the date or dates on which you provided the lead or lead-containing materials, and the dates on which these transactions occurred.
13. Have you ever generated lead-containing particulate matter or any form of airborne, lead-containing material at your facility? If yes, please provide the following:
- A. Identify the particulate matter or materials;
  - B. Describe how you generated this particulate matter or material;
  - C. Describe the fate of this material.
14. Please state whether the Company monitored air emissions from the Facility. If the Company did monitor air emissions from the Facility, please provide the following:
- A. A description of the type of air monitoring performed;
  - B. A description of the years during which the Company performed air emissions monitoring;
  - C. A description of the results of the air emissions monitoring;

- D. The identity of the person or persons who performed the air emissions monitoring;
  - E. A copy of any reports, memoranda, notes, letters or documents referencing the air emissions monitoring or summarizing the results of the air emissions monitoring.
15. Please state whether the Company has observed air emissions at the Facility that resulted in a non-attainment event. If the Company has observed air emissions that resulted in a non-attainment event, please provide the following:
- A. The date and time of the non-attainment event;
  - B. The type of emission that caused the non attainment event;
  - C. The duration of the non-attainment event;
  - D. An estimate of the volume of material released into the air between the time the non-attainment event began and the time it took for the Company to restore operations to attain compliance with air emissions limits;
  - E. A description of the manner in which the Company determined that a non-attainment event had occurred, and,
  - F. A description of the steps taken by the Company to restore operations to attain compliance with air emissions limits.
16. Please describe any facility processes that may have released into the environment airborne lead particles or lead-containing material, including the following:
- A. Describe your facility's emissions stacks or any comparable structures;
  - B. Describe the mechanisms you used to prevent the airborne releases of lead or lead-containing materials from your facility; and,
  - C. Identify any airborne releases of lead or lead-containing materials to the environment that occurred prior to environmental regulation of air emissions.
17. Please state whether the Company caused or allowed materials located or generated within the boundaries of the Facility to be used as fill material at a location or locations beyond the boundaries of the Facility. If the Company did cause or allow materials located or generated within the boundaries of the Facility to be used as fill material at a location or locations beyond the boundaries of the Facility, please provide the following:
- A. A description of when materials were removed from the Facility to be used as fill;
  - B. A description of the type and volume of material removed from the Facility to be used as fill; and,
  - C. A description of the location or locations where materials located or generated within the boundaries of the Facility were placed for use as fill material.

Enclosure 3

INSTRUCTIONS

1. Answer each of the questions in this Information Request separately.
2. Precede each answer with the number of the question to which it corresponds.
3. In answering each question, identify all persons and contributing sources of information.
4. The relevant time period for this request is 1945 to the present.
5. Although the U.S. EPA seeks your cooperation in this investigation, CERCLA requires that you respond fully and truthfully to this Information Request. False, fictitious, or fraudulent statements or misrepresentations may subject you to civil or criminal penalties under federal law. Section 104 of CERCLA, 42 U.S.C. §9604, authorizes the U.S. EPA to pursue penalties for failure to comply with that Section, or for failure to respond adequately to requests for submissions of required information.
6. You must supplement your response to U.S. EPA if, after submission of your response, additional information should later become known or available. Should you find at any time after the submission of your response that any portion of the submitted information is false or misrepresents the truth, you must notify U.S. EPA as soon as possible.
7. For any document submitted in response to a question, indicate the number of the question to which it responds.
8. You must respond to each question based upon all information and documents in your possession or control, or in the possession or control of your current or former employees, agents, contractors, or attorneys. Information must be furnished regardless of whether or not it is based on your personal knowledge, and regardless of source.
9. Your response must be accompanied by the following statement, or one that is substantially equivalent:

I certify under penalty of law that this document and all enclosures were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based upon my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant

penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

The individual who prepared the response or the responsible corporate official acting on behalf of the corporation must sign and date the statement, affidavit, or certification. Include the corporate official's full title.

10. If any of the requested documents have been transferred to others or have otherwise been disposed of, identify each document, the person to whom it was transferred, describe the circumstances surrounding the transfer or disposition, and state the date of the transfer or disposition.
11. All requested information must be provided notwithstanding its possible characterization as confidential information or trade secrets. If desired, you may assert a business confidentiality claim by means of the procedures described in Enclosure 5.

## Enclosure 4

### DEFINITIONS

1. As used in this letter, words in the singular also include the neutral, and words in the masculine gender also include the feminine, and vice versa.
2. The term **person** as used herein includes in the plural as well as the singular any natural person, firm, contractor, unincorporated association, partnership, corporation, trust or governmental entity, unless the context indicates otherwise.
3. **The Site** referenced in these documents shall mean the **USS Lead Site, 5300 Kennedy Avenue and the residential area bounded by Chicago Avenue to the north, Parish Avenue to the east, USS Lead to the south and Aster Avenue to the west**, located in East Chicago, Indiana.
4. The terms **hazardous substance** shall have the same definition as that contained in Section 101(14) of CERCLA, including any mixtures of such hazardous substances with any other substances, including petroleum products.
5. The terms **pollutant** or **contaminant** shall have the same definition as that contained in Section 101(33) of CERCLA, and includes any mixtures of such pollutants and contaminants with any other substances.
6. The term **release** shall have the same definition as that contained in Section 101(22) of CERCLA, and means any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment, including the abandonment or discarding of barrels, containers, and other closed receptacles containing any hazardous substance, pollutant, or contaminant.
7. The term **identify** means, with respect to a natural person, to set forth the person's full name, present or last known business address, and business telephone number; present or last known home address, and home telephone number; and present or last known job title, position, or business.
8. The term **identify** means, with respect to a corporation, partnership, business, trust or other association or business entity (including a sole proprietorship), to set forth its full name, address, legal form (e.g., corporation, partnership, etc.), organization, if any, and a brief description of its business.
9. The term **identify** means, with respect to a document, to provide its customary business description, its date, its number, if any (invoice or purchase order number), the identity of the author, addressor, addressee and/or recipient, and the substance or the subject matter.

10. All terms not defined herein will have their ordinary meaning, unless such terms are defined in CERCLA, RCRA, 40 C.F.R., Part 300 or 40 C.F.R., Part 260-280, in which case, the statutory or regulatory definitions will apply.

Enclosure 5

CONFIDENTIAL BUSINESS INFORMATION

You may consider some of the information confidential that the U.S. Environmental Protection Agency (U.S. EPA or Agency) is requesting. You cannot withhold information or records upon that basis. The Regulations at 40 C.F.R. Part 2, Section 200 *et seq* require that the U.S. EPA affords you the opportunity to substantiate your claim of confidentiality before the Agency makes a final determination on the confidentiality of the information.

You may assert a business confidentiality claim covering part or all of the information requested, in the manner described by 40 C.F.R. 2.203(b). Information covered by such a claim will be disclosed by the U.S. EPA only to the extent and only by means of the procedures set forth in 40 C.F.R. Part 2, Subpart B. (See 41 Federal Register 36902 *et seq.* (September 1, 1976); 43 Federal Register 4000 *et seq.* (December 18, 1985).) If no such claim accompanies the information when the U.S. EPA receives it, the information may be made available to the public by the Agency without further notice to you. Please read carefully these cited regulations, together with the standards set forth in Section 104(e)(7) of Comprehensive Environmental Response Compensation Liability Act (CERCLA); because as stated in Section 104(e)(7) (ii), certain categories of information are not properly the subject of a claim of confidential business information.

If you wish the U.S. EPA to treat the information or record as "confidential," you must advise the U.S. EPA of that fact by following the procedures described below, including the requirement for supporting your claim of confidentiality. To assert a claim of confidentiality, you must specify which portions of the information or documents you consider confidential. Please identify the information or document that you consider confidential by page, paragraph, and sentence. You must make a separate assertion of confidentiality for each response and each document that you consider confidential. Submit the portion of the response that you consider confidential in a separate, sealed envelope. Mark the envelope "confidential," and identify the number of the question to which it is the response.

For each assertion of confidentiality, identify:

1. The period of time for which you request that the Agency consider the information confidential, e.g., until a specific date or until the occurrence of a specific event;
2. The measures that you have taken to guard against disclosure of the information to others;
3. The extent to which the information has already been disclosed to others and the precautions that you have taken to ensure that no further disclosure occurs;

4. Whether the U.S. EPA or other Federal agency has made pertinent determination on the confidentiality of the information or document. If an agency has made such a determination, enclose a copy of that determination;
5. Whether disclosure of the information or document would be likely to result in substantial harmful effects to your competitive position. If you believe such harm would result from any disclosure, explain the nature of the harmful effects, why the harm should be viewed as substantial, and the causal relationship between disclosure and the harmful effect. Include a description of how a competitor would use the information; and
6. Whether you assert that the information is voluntarily submitted as defined by 40 C.F.R. 2.201(I). If you make this assertion, explain how the disclosure would tend to lessen the ability of the U.S. EPA to obtain similar information in the future; and
7. Any other information that you deem relevant to a determination of confidentiality.

Please note that pursuant to 40 C.F.R. 2.208(e), the burden of substantiating confidentiality rests with you. The U.S. EPA will give little or no weight to conclusory allegations. If you believe that facts and documents necessary to substantiate confidentiality are themselves confidential, please identify them as such so that the U.S. EPA may maintain their confidentiality pursuant to 40 C.F.R. 2.205(c). If you do not identify this information and documents as "confidential," your comments will be available to the public without further notice to you.

## Enclosure 6

### DESCRIPTION OF LEGAL AUTHORITY

The Federal Superfund law (the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. Section 9601, *et seq.* (commonly referred to as **CERCLA** or **Superfund**) gives U.S. EPA the authority to, among other things: 1) assess contaminated sites, 2) determine the threats to human health and the environment posed by each site; and 3) clean up those sites.

Under Section 104(e)(2) of CERCLA, 42 U.S.C. §9604 (e)(2), U.S. EPA has broad information gathering authority which allows U.S. EPA to require persons to furnish information or documents relating to:

- A. The identification, nature, and quantity of materials which have been or are generated, treated, stored, or disposed of at a vessel or facility, or transported to a vessel or facility;
- B. The nature or extent of a release or threatened release of a hazardous substance or pollutant or contaminant at/or from a vessel or facility;
- C. The ability to pay the costs of the clean-up.

Compliance with this Information Request is mandatory. Failure to respond fully and truthfully to each question within this Information Request and within the prescribed time frame can result in an enforcement action by U.S. EPA pursuant to Section 104(e)(5) of CERCLA. This Section also authorizes an enforcement action with similar penalties if the recipient of the Request does not respond and does not justify the failure to respond. Other statutory provisions (18 U.S.C. §1001) authorize separate penalties if the responses contain false, fictitious or fraudulent statements. The U.S. EPA has the authority to use the information requested in this Information Request in an administrative, civil or criminal action.

**INFORMATION SHEET**

## U.S. EPA Small Business Resources

If you own a small business, the United States Environmental Protection Agency (EPA) offers a variety of compliance assistance and tools to assist you in complying with federal and State environmental laws. These resources can help you understand your environmental obligations, improve compliance and find cost-effective ways to comply through the use of pollution prevention and other innovative technologies.

### EPA Websites

EPA has several Internet sites that provide useful compliance assistance information and materials for small businesses. Many public libraries provide access to the Internet at minimal or no cost.

EPA's Small Business Home Page (<http://www.epa.gov/sbo>) is a good place to start because it links with many other related websites. Other useful websites include:

*EPA's Home Page*  
<http://www.epa.gov>

*Small Business Assistance Programs*  
<http://www.epa.gov/ttn/sbap>

*Compliance Assistance Home Page*  
<http://www.epa.gov/oeca/oc>

*Office of Site Remediation Enforcement*  
<http://www.epa.gov/oeca/osre>

### Hotlines, Helplines and Clearinghouses

EPA sponsors approximately 89 free hotlines and clearinghouses that provide convenient assistance on environmental requirements.

EPA's Small Business Ombudsman Hotline can provide a list of all the hot lines and assist in determining the hotline best meeting your needs. Key hotlines include:

**EPA's Small Business Ombudsman**  
(800) 368-5888

**Hazardous Waste/Underground Tanks/  
Superfund**  
(800) 424-9346

**National Response Center**  
(to report oil and hazardous substance spills)  
(800) 424-8802

**Toxics Substances and Asbestos Information**  
(202) 554-1404

**Safe Drinking Water**  
(800) 426-4791

**Stratospheric Ozone and Refrigerants  
Information**  
(800) 296-1996

**Clean Air Technical Center**  
(919) 541-0800

**Wetlands Hotline**  
(800) 832-7828

*Continued on back*

### Compliance Assistance Centers

In partnership with industry, universities, and other federal and state agencies, EPA has established national Compliance Assistance Centers that provide Internet and "faxback" assistance services for several industries with many small businesses. The following Compliance Assistance Centers can be accessed by calling the phone numbers below and at their respective websites:

#### Metal Finishing

(1-800-AT-NMFRC or [www.nmfrc.org](http://www.nmfrc.org))

#### Printing

(1-888-USPNEAC or [www.pneac.org](http://www.pneac.org))

#### Automotive Service and Repair

(1-888-GRN-LINK or [www.ccar-greenlink.org](http://www.ccar-greenlink.org))

#### Agriculture

(1-888-663-2155 or [www.epa.gov/oeca/ag](http://www.epa.gov/oeca/ag))

#### Printed Wiring Board Manufacturing

(1-734-995-4911 or [www.pwbrc.org](http://www.pwbrc.org))

#### The Chemical Industry

(1-800-672-6048 or [www.chemalliance.org](http://www.chemalliance.org))

#### The Transportation Industry

(1-888-459-0656 or [www.transource.org](http://www.transource.org))

#### The Paints and Coatings Center

(1-800-286-6372 or [www.paintcenter.org](http://www.paintcenter.org))

### State Agencies

Many state agencies have established compliance assistance programs that provide on-site and other types of assistance. Contact your local state environmental agency for more information. For assistance in reaching state agencies, call EPA's Small Business Ombudsman at (800)-368-5888 or visit the Small Business Environmental Homepage at <http://www.smallbiz-enviroweb.org/state.html>.

### Compliance Incentives

EPA provides incentives for environmental compliance. By participating in compliance assistance programs or voluntarily disclosing and promptly correcting violations, businesses may be eligible for penalty waivers or reductions. EPA has two policies that potentially apply to small businesses: The Audit Policy (<http://www.epa.gov/oeca/auditpol.html>) and the Small Business Policy (<http://www.epa.gov/oeca/>

[smbusi.html](http://www.epa.gov/oeca/smbusi.html)). These do not apply if an enforcement action has already been initiated.

### Commenting on Federal Enforcement Actions and Compliance Activities

The Small Business Regulatory Enforcement Fairness Act (SBREFA) established an ombudsman ("SBREFA Ombudsman") and 10 Regional Fairness Boards to receive comments from small businesses about federal agency enforcement actions. The SBREFA Ombudsman will annually rate each agency's responsiveness to small businesses. If you believe that you fall within the Small Business Administration's definition of a small business (based on your Standard Industrial Code (SIC) designation, number of employees or annual receipts, defined at 13 C.F.R. 121.201; in most cases, this means a business with 500 or fewer employees), and wish to comment on federal enforcement and compliance activities, call the SBREFA Ombudsman's toll-free number at 1-888-REG-FAIR (1-888-734-3247).

### Your Duty to Comply

If you receive compliance assistance or submit comments to the SBREFA Ombudsman or Regional Fairness Boards, you still have the duty to comply with the law, including providing timely responses to EPA information requests, administrative or civil complaints, other enforcement actions or communications. The assistance information and comment processes do not give you any new rights or defenses in any enforcement action. These processes also do not affect EPA's obligation to protect public health or the environment under any of the environmental statutes it enforces, including the right to take emergency remedial or emergency response actions when appropriate. Those decisions will be based on the facts in each situation. The SBREFA Ombudsman and Fairness Boards do not participate in resolving EPA's enforcement actions. Also, remember that to preserve your rights, you need to comply with all rules governing the enforcement process.

*EPA is disseminating this information to you without making a determination that your business or organization is a small business as defined by Section 222 of the Small Business Regulatory Enforcement Fairness Act (SBREFA) or related provisions.*

# EPA to begin testing for lead contamination in yards

**USS Lead**  
East Chicago, Indiana

March 2006

## Informational meetings

EPA will hold two informational meetings to explain the residential testing process and answer your questions. Please plan to attend.

**Tuesday March 22**

**3:00 –6:00 p.m.**

**Washington Elementary School  
Community Center Library  
1401 E. 144th Street  
East Chicago, Ind.**

- and -

**Wednesday March 23**

**3:00 –6:00 p.m.**

**Carrie Gosch School  
445 W. 148th Street  
East Chicago, Ind.**

If you need special accommodations to attend this meeting, contact Joe Munoz at least one week before the meeting at (312) 886-7935

## Your help is needed

This fact sheet also includes an access agreement and a stamped envelope for you to sign and send it back so EPA can test your yard for lead contamination at no cost to you.

EPA will also accept signed access agreement at the informational meetings.

It is important to return the access agreement as soon as you get it. The access agreement allows your yard to be sampled for lead contamination.

Soil at some East Chicago homes could be contaminated with lead. U.S. Environmental Protection Agency (EPA) plans to find out more information this spring by taking test samples from residential yards in neighborhoods near the former USS Lead plant.

Samples will be taken from yards in an area between East Chicago Avenue and 151<sup>st</sup> Street, and between Aster Street and Parrish Avenue. EPA will hold two meetings to explain this process to area residents (see box, left).

## Permission needed for samples

If you live in the area described, EPA needs your permission to take soil samples from your yard. An agreement form is included with this fact sheet for your convenience. Please complete the form, sign it and return it to EPA in the stamped envelope provided. EPA representatives will also be going door-to-door seeking permission from property owners.

EPA technicians will take samples from both the front and back yards to find out if there is any danger to you from lead in the soil. These tests are done at no cost to you, and all the work is done outside your home.

## USS Lead background

If there is lead contamination in your neighborhood, it may have come from U.S. Smelter and Lead Refinery Inc., commonly known as USS Lead, or other industries that have operated in the area. The company operated on a 79-acre site at 5300 Kennedy Ave. from 1906 until December 1985. They recovered lead from scrap metal and automobile batteries.

USS Lead produced lead waste as part of their smelting process. Some of this waste was emitted into the air, while some built up in large piles on the ground of the facility. The former plant area has already been cleaned up. Now EPA is trying to determine other areas that may need to be cleaned up.

## What is lead?

Lead is a naturally occurring heavy metal. It is commonly found at low levels in soil. Low levels of lead can be found in the air, water, food and dust in cities because of the widespread use of lead in man-made products. The federal government regulates the amount of lead in the air, water and soil.

Lead is highly toxic and can cause a range of health effects, from behavioral problems and learning disabilities to seizures and death. Children 6 years old and younger are most at-risk because their bodies are growing quickly and the effects of the lead can cause problems. Children often have higher levels of exposure because they play in dirt and may put dirty hands in their mouths. Also, children who lack proper nutrition may absorb more lead and suffer more harmful effects.

## What should I do to reduce exposure to lead?

You should take steps to protect children from lead-contaminated soil. Pregnant women should seek prenatal care to protect their developing infants. You can limit children's exposure to dirt in the following ways:

- cover areas of exposed dirt with grass, flowers, mulch or concrete.
- wash down very dusty areas with a hose.
- discourage children from playing in the dirt, gravel or ground covers (like sidewalks and driveways).
- supervise young children to prevent them from eating dirt.
- wash children's hands often, especially before they eat and before nap time and bed time.
- clean or remove your shoes before entering your home to avoid tracking in lead from soil.
- make sure children eat nutritious, low-fat meals high in iron and calcium, such as spinach and dairy products. Children with good diets absorb less lead.

To prevent ingestion of lead-contaminated dust, you should:

- place a door mat at the door.
- vacuum carpets and drapes.
- dust with an oiled cloth.
- mop floors often.
- wipe your feet before entering your home.
- keep windows closed as much as possible to reduce dirt in the home.
- replace furnace filters often.

Call the National Lead Information Center (800) 424-LEAD (5323) to learn more about how to protect children from lead poisoning and for other information on lead hazards, or visit [www.epa.gov/lead](http://www.epa.gov/lead)

These EPA representatives are available to discuss the residential yard sampling with you:

☐ Owner

Address(es) of Property(ies): \_\_\_\_\_  
\_\_\_\_\_

I consent to officers, employees, contractors, and authorized representatives of the United States Environmental Protection Agency (EPA) entering and having continued access to the property described above (the Property) to perform the following response actions: (1) collecting soil samples; (2) excavating Property soils; (3) backfilling the excavated area(s) of the Property with clean soil and/or backfill; and (4) restoring to their pre-excavation condition grass, other vegetation, or structures altered during sampling or excavation activities.

I realize that these actions taken by EPA are undertaken pursuant to its response and enforcement responsibilities under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, 42 U.S.C. Section 9601 et seq. These activities are necessary to identify and cleanup contaminated soils.

I give this written permission voluntarily, on behalf of myself and all other co-owners of the Property, with knowledge of my right to refuse and without threats or promises of any kind. I understand that EPA or authorized representatives of EPA will contact me before the removal of soil begins to discuss the steps involved in the excavation and removal program, and to review all measures EPA will take to restore my Property.

This document can only be signed by the property owner.
